Marketing Offices : USA and France

Every marketing office comprises of a team of designers responsible for the design development ably aided by sales personnel's that furnish the product to the various customers we represent. We have a customer-oriented approach whereby every client has an individual member from our marketing team looking after his interests. We specialize in Men's, Women's, and Children's apparel.

Production Offices : Bangladesh, India and China

The organogram of these production centers is interlinked by an MIS software that enables online monitoring and updates to our entire customer base. All merchandise related information is available at the punch of a key

Fair, Ethical & Sustainable Sourcing :

Diversified product range including Flat & circular knits, Shirting's, Woven Bottoms, Outerwear, Sportswear.

Ethical, compliant and sustainable sourcing in every aspect of our operations and supply chain management. Our Corporate Social Responsibility (CSR) program is the tool where we execute rigorous supplier certifications, coaching and mentoring, proprietary audits and unannounced monitoring.

All manufacturers are also required to achieve and maintain certifications and those of the individual buyers/customers or other international accredited organizations. Consumer and regulatory demands for more sustainable clothing and textiles are growing and the fashion industry is rising to the challenge. As a global business, we understand the responsibility we have to our people and planet.

Merchandising :

AVL comprises of a team of experienced and qualified personal in merchandising and technical aspects. They are ably responsible for product sourcing/development and communication. Analyzing production capacity and space, timely placements and execution, shipments status and follow-ups, all form an integral part of this division.

Research and Development / R&D :

A subdivision of Merchandising, this department keeps abreast of latest fashion and fabric trends, giving AVL not just a valued intel into fashion forecasts, but an undeniable edge over its competitors. With our in-house sampling department we have the capability to produce 400-450 pieces per month. The in house washing specialist manages all the wash processes as well as monitors washing activities in production and guide the suppliers.

Quality Assurance and Control :

The final word in product analysis, this team is dedicated to ensure stringent Quality AQL standards are maintained. Besides in-house fabric and garment testing, the department works in close collaboration with SGS and ITS as and when required.

Fabric Development

Prior to every collection, a group of technically qualified textile engineers create new fabric designs based on seasonal colors and fashion forecasts. This range covers the entire gamut of Yarn-dyed checks, stripes, dobby, seersuckers, viscose and georgettes.

- **Fabric Sourcing: Bangladesh, India, China, Pakistan.**

Compliance :

AVL conducts stringent and regular inspections, ensuring that our supplier base maintains compliance issues adhering to Child Labor, Health and Safety Equipment and environmental waste management. An awareness of key Human Rights plays a pivotal role –in our vendor base selection.

Our Manufacturing Partners are Compliant with International Standards and Code of Conduct :

Shipping and Logistics :

A team dedicatedly ensuring that not only all documents are made in accordance to L/C, but are dispatched in time, facilitating a procurement of the Import license in advance, by its customers.

Design Studio

Our design studio is a creative hub. It enables us to create collections based on a thorough research and study of international fashions, colors forecasts and trends. Along with new fabric patterns and designs, the studio launches seasonal collections, which includes new silhouettes and washes in keeping with the current market trends. The seasonal collections are primarily early summer, high summer, fall and autumn/winter.

- Offer 8 collections per year .
- Graphic & embellishment development.
- Self lab dip & strike off developments.

Besides its own collection, the studio also creates custom made collections for buyers based on their individual requirements and specifications
